Super Comply		
	17	Experience the ease of managing SMSF entities when the power of technology makes the whole process efficient and compliant in NowInfinity.
Safe online storage	18	Maintain all of your SMSFs in one safe cloud-based register via the Super Comply feature.
Simple fund updates	19	Keep the profiles of each fund easily up to date when you change trustee, members, or fund name. The trust profile of the fund will be automatically updated on the Super Comply feature.
Document timeline	20	Utilise our Super Comply feature to visually store and see all documents created on the register on the document timeline.
Single SMSF repository	21	Since any changes to the documents or new governing rules are centralised, this document repository quickly becomes the single 'source of truth' on all the SMSFs that you manage via our Super Comply.
Trust Register		
	22	Trust Register allows the creation of trust related documents, including appointment and removal of trustees, vesting, issue/cancel/transfer of units in a Unit Trust and other trust administration processes in an efficient and streamlined way.
Trust document templates	23	Save time wasted sorting through files or spreadsheets using our Trust Register. Let NowInfinity do the tedious tasks, like adding available trust information into document templates for you.
Tracked compliance activity	24	Reduce your liability risk when it comes to changes made to your trusts which may affect stamp duty or CGT by tracking all your changes in one central location and being one step ahead of compliance using the Trust Register features.
Personalised trust timelines	25	Trust Register will create a personalised timeline for every trust where you can easily see a snapshot of all historical changes made. You also have the ability to upload and store any other documents to this timeline, creating a true repository.
Trust document repository	26	Standardise the documents you use to maintain your client's trust structures. Our Trust Register gets you easy access to maintenance documents for each trust, which are all included in the per trust fee.

Yearly tracking	27	Trust Registers helps you keep on top of your overheads and maintenance documents such as trust distribution resolutions.
Automatic trust updates	28	All future changes made to a trust will automatically be added to your trusts profile and register.
Seamless integration with Class	29	Documentation Suite seamlessly integrates with Class Super, simplifying and automating SMSF administrative processes to establish and management.
